ABCmouse has thousands of games, puzzles, books, and other activities to help children learn to read by blending phonemes in words, learning to recognize sight words, and learning to read multisyllable words by breaking them down into decodable chunks. Specifically, many activities offer practice with decoding consonant blends, digraphs, and vowel teams and chunking words to aid comprehension using syllabication and knowledge of affixes.

Additionally, ABCmouse introduces the character Tyler the Reading Ranger in Grade 2, who describes and models a variety of strategies to aid comprehension.

Finally, to support the development of reading fluency, ABCmouse offers a selection of stepped readers and fun fiction texts appropriate for a second grade reading level.
